how to install

Make sure you have the latest version of Diva installed. You need at least Diva v1.3 to be able to use these sounds.

Getting the sounds into Diva is easy.

In your unzipped archive (where you found this file) there is a folder called 'Plughugger Twilight'.

Copy this folder.

Mac: paste this folder into: Macintosh HD/Library/Audio/Presets/u- he/Diva/THIRD PARTY.

PC: go to the VST folder where you installed Diva. Then paste the folder into Diva.data\Presets\Diva \THIRD PARTY.

about the sounds

Turn down the lights, put on the headphones and enter a world of mellow tones drenched in long reverbs.

Twilight for Diva is a is a soundset aimed for producers of ambient music, TV and movies.

The soundset sets the focus on the duality of ambient music: Beauty and Darkness.

Cute mellow sounds are mixed with dark and scary soundscapes - worthy of The Future Sound of London and dark soundtracks of David Lynch.

license agreement

Please read the terms of the following agreement before using this software.

The sounds that came with this agreement are the property of Plughugger, which in turn is the property of Carl Löfgren. The sounds are licensed – not sold – to you, for use in your music productions.

The right to use enclosed sounds is only granted to the original end-user of the product. This right is not transferable – which means you cannot sell these sounds second hand. If the product is sold, yours and the buyers license are no longer valid.

All lending, renting, copying, duplicating, trading or reselling of this product or its contents is naturally not allowed. You may neither upload or download this product or any sounds from it, on the Internet.

You can use the sounds in any type of *commercial or private music production* without permission or paying any further fees than the original price of the product. You may modify the sounds to your needs. The only restriction is that you must not use the sounds in an isolated manner – for public releases the sound must always be used in a musical context. You are not allowed to create a sample library based on the sounds you purchase from Plughugger.

The sounds provided are licensed "as is" without warranties of any kind. Neither the producer, nor Plughugger can be held responsible for any direct or indirect or consequential loss arising from the use of this product in whatever form.

pop! for strobe 2

Inspired by modern and classic Pop trends, POP! for Strobe 2 is a collection of 150 sounds that explores the boundary of Contemporary Pop and the sound of modern EDM.
